pedestal®

Creating honest, versatile, and functional designs with great inspiration in the industrial idiom of the twentieth century is the fundamental design vision of Pedestal. The functionality thus appears as an intended part of the design, where the contrast between functionality and the organically adapted forms creates an elegant visual manifestation. In our designs, we combine materials, proportions, and simple details to make TV screens and stands adapt into contemporary homes and office spaces.

# Wheels

Adding wheels to the screens opens a world of mobility. Indoor or outdoor. Movie or news. Meetings or presentations. All get possible by moving the screen for different purposes. From your living room to the terrace. From the couch to the kitchen. From the conference room to the cantina. Make the screen fit to the occasion and avoid the screen to dictate the occasion.

Straight Rollin'  
Mushroom, Shelf, Dark Ash Inlay

# Accessories

The wide assortment of functional mounts is compatible with all Pedestal stands. In this way individual functional needs can be met by adding the necessary mounts for the specific functional need. From cable management to mounting TV boxes, webcam, computers, or game consoles. A unique solution with the highest level of flexibility.
